

Governor Visit Clare Stubbs 1 Feb 2018

Focus of visit Class visit Year 3.

Classes/staff visited Year 3 / Miss Hodgson

Summary

I spent the afternoon in year 3, looking at activities related to geography, RE.

What have I learned as a result of my visit?

Pupils were involved in a geography lesson during the first part of the afternoon. They learned how to read a compass and draw a plan of their class room. Pupils were also engaged in finishing writing prayers. These were their own thoughts and prayers; they were well-written and thought-provoking. I observed a small group of pupils preparing and leading on their first liturgy; this was very successful with all pupils joining in an appropriate way.

Positive comments

A warm welcome from pupils and teacher. Pupils were engaged with their work and well-behaved. Pupils had written their own prayers and a small group led a liturgy for the first time. This was very moving and everyone participated .

Aspects I would like clarified, etc.

To discuss boys' reading and writing but was unable to do this due to time constraints.

Ideas for future visits

As above.
