

### All About Me

Firstly we understand the importance of settling children back into routines. We will ensure all children are settled back into OSC within the first week and feel at home. We will be talking about themselves and their families. Activities will centre on self-portraits, talking and writing about their family and getting to know each other after a long summer holiday.

Reading, writing and maths activities are encouraged all year round in addition to creative, cooking and outdoor activities. There will also be daily opportunities for children to be active.

### Space

This will be our on-going topic until the end of the autumn term. We will be exploring the solar system and learning about all the wonders of outer space. Activities could be alien spotting, star gazing, rocket ship races. It will be out of the world.

### Autumn

Once autumn is in full swing we will encourage children to look for signs of autumn, going on autumn hunts around school grounds and trying autumn fruits. Activities will include making bird feeders, stick men, leaf animals and even a game of conkers.

## Autumn Term

### Events

We will also spend time looking at Bonfire Night, Halloween, and Christmas. Activities will include looking into how all of these festivals are celebrated worldwide, decoration making, festive cooking and of course our annual trip to Fewicks window.
