

### Spontaneous Planning

We are taking a much more child led approach this year in OSC, letting the children guide us with our activities and future session ideas. The children are responding well to this and seem to be enjoying taking the lead.

### Online and In School Homework Help

There will now be a more structured time for children who need help with homework or online activities. We can also listen to them read and assist with any spelling, timetables homework they may need. Please note this is not an intervention session and staff can not give 1:1 support.

### Everyone is Welcome

The second part of half term will see OSC open its doors to other members of staff. They will be calling in for a visit and maybe an activity or two. I am really looking forward to having some new faces in OSC and trying new things.

# Spring Term

Reading, writing and maths activities are encouraged all year round in addition to creative and outdoor activities. There will also be daily opportunities for children to be active.

### Spring

Once spring is well on its way, we will be looking into the signs of spring, new life and growth. We will be doing some planting of our own and learning about the cycle of growth from seedling to plant.

### Events/Celebrations

We will be spending some time looking into any events or celebrations that may be happening over the upcoming months, Valentine's Day, Shrove Tuesday and of course Easter.
